HARSH MESHRAM

PROJECTS

Credit Card Fraud Detection

- Perform Exploratory Data Analysis (EDA) on the datasheet.
- Analysed Card Fraud Detection using Machine Learning model.
- Logistic Regression Algorithm is used in this project

HR Analytics

- Worked on analysis about employees attrition.
- Cleansing excel datasheet and export to Power BI.
- Developed a dashboard using Power BI and give suggested ways to solve this problem.

Music Store Data Analysis

- Worked on PostgreSQL to analyse the data, effectively managing and querying large datasets.
- Find out the solutions to given problems based on this data.

Web Scrapping

- Developed a web scraping project using Python to extract valuable data from Flipkart's website.
- Implemented efficient data collection utilized libraries like BeautifulSoup and requests for web scraping.

SKILLS

- Programming Language: C, C++, HTML, JavaScript, SQL, Python(Pandas, Matplotlib, Seaborn, Numpy)
- Software Tools: VS Code, Excel, PostgreSQL, Microsoft Power BI, Power BI Report Builder,
 Jupyter Notebook.
- Visualization: Power BI, Microsoft Excel, PostgreSQL.
- Machine Learning: Scikit-Learn.

EDUCATION

Bachelor of Technology

Visvesvaraya National Institute of Technology, Nagpur May 2020 – May 2024 Electrical and Electronics Engineering

Higher Secondary School

Taywade Junior School, Nagpur

May 2018 – May 2020

Computer Science Stream | Percentage: 87.4

Secondary School

Bhange Public School, Nagpur

May 2015 – May 2018

Elementary Education | Percentage: 89.2
